Subject: RE: Urgent: Questions for Budget Hearing Prep

Ken,

An update of the Anaconda Copper Mine is as follows:

"Anaconda Copper Mine – Region 8 has reached an agreement in principle and is currently negotiating specific settlement language with the parties. The Region anticipates reaching a final settlement at the end of 2019. EPA expects ARCO will conduct and fund critically important site investigations and cleanup."

Bruce

Subject: FW: Urgent: Questions for Budget Hearing Prep
Importance: High

Region 8 colleagues and Bruce: please see first two green bullets below, and provide me with an answer as soon as possible today.

Region2 colleagues and Deniz: as to third green bullet, I am pretty sure that Occidental and perhaps a few others are NOT members of the CPG (correct?) and don't know about International Paper. Please let me know as soon as possible today.

Subject: Urgent: Questions for Budget Hearing Prep

Dana,

I just left you a VM – we just had our budget hearing prep with the Administrator, and some questions came up that I don't have the answers to. Any help you can provide is greatly appreciated!

- Please send a few bullet points on the resiliency of the Superfund sites during the NC hurricanes
- Anaconda Copper Mine – is there an agreement with ARCO yet? Bullet point says EPA expects that ARCO will conduct and fund critically important site investigation and cleanup.
- Anaconda Smelter – Is this correct: "Administrator Wheeler was the first Administrator to visit both Superfund sites in Montana in 20 years."
- Passaic – Does the "Cooperating Parties Group" includes all of the PRPs? Is International Paper a PRP here?

Will be sending more shortly. I'd appreciate any help getting these answers back up to the AO ASAP.
Thank you!!!
